

THAYANITHI V

PROCESS ASSOCIATE

CAREER OBJECTIVE

To work in a challenging environment that would provide me with numerous opportunities to utilize and develop my skills and knowledge. This would help me improve my career and contribute to the company to my full potential.

WORK EXPERIENCE

Process Associate, I-Cons Technologies
Coimbatore | 2020 August–2022 (Present)

- I have 6 month experienced in HTML, CSS and BOOTSTRAP
- Experienced working on data verification and data generation.
- And by Using client applications like street bees, slintel

Data Verification

An application called street bees is mainly used to take the survey from clients who mostly used products in pandemic situations. Understand and track brand performance from consumers. And how consumers are engaging with media and entertainment, in and out of home, across all the platforms.

Data Generation

An application called slintel we used to collect the information about the b2b marketing.
